WORLD CLASS

Garrett was the first to provide security checkpoint screening metal detectors for the Olympic Games.

Since that time, our products have continued to improve for large venue use. Garrett detectors have been trusted at countless special events—including many Olympic and Paralympic Games, World Cup events, the Pan-American Games, professional sports contests, college stadiums, and more.

For decades, Garrett has been trusted at the largest special events to provide safety, security, and peace of mind.

Comprehensive Training Available

Garrett's Virtual Academy is a free online training platform with video content and graded knowledge checks so users and supervisors can learn with confidence. The videos are divided into short segments to ensure trainees are not bogged down in too many details and that each course can be completed at the user's convenience.

Resources available for learning are:

- Walkthrough setup and accessory installation
- Checkpoint design and operation
- Usage guidelines for Garrett hand wands
- And more!

To enroll today, visit Garrett's Security Division at <https://garrett.com/security/academy> or email academy@garrett.com

These marks certify
Garrett's Made in USA
quality inside and out.

Don't be fooled by imposters. All Garrett products are designed, assembled, tested for quality control, and shipped from our headquarters in Garland, Texas, USA. Garrett's ISO 9001 certified Quality Management System emblems are an outward reflection of the true quality within.

Safety. Security. Peace of Mind.

Garrett's walkthrough metal detectors are highly effective at moving large volumes of patrons through checkpoints with superior detection performance. They are trusted worldwide to safeguard airports, government buildings, correctional facilities, and international sporting contests.

The Garrett *PD 6500i* walk-through detector—featuring 33 pinpoint zones and advanced discrimination—and the Garrett *Multi Zone* each offer enhanced features and mobile deployment options. Each includes advanced access control, intuitive operator menus, and full networking ability with other security checkpoint units.

Trust in Garrett, the global leader in detecting technology.

School security package plans available

Simultaneous health and safety screening

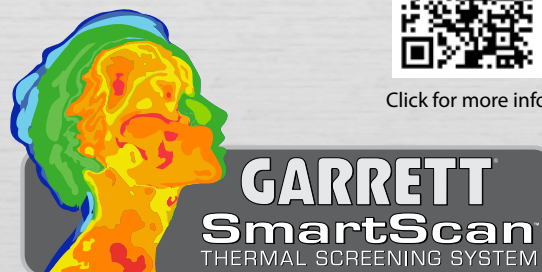

Effortless temperature screening. Garrett *SmartScan*™ technology allows body temperature measurements to be taken during normal security screening with no extra hassle or anxiety. Seamless integration of *SmartScan* into Garrett walk-through detectors allows your checkpoint to become an efficient, multi-functional, no-contact station.

SMARTSCAN KEY FEATURES:

- Cost effective, fast temperature detection of incoming traffic
- Does not slow down existing screening process
- No technical staff needed to make initial temperature evaluations
- Help reduce costs and the potential for human error
- Battery-operated for ease of use and optimal flexibility
- Intuitive status indicators for startup, calibration, misreads, and elevated temperature alarms
- Visual and audible alarm options
- No dangerous cords or cables or unstable tripod required.
- No additional components that require floor space.
- Quick start operation (*single button to power on and begin using*)

SmartScan Part Numbers:

Product Description	Part No.
SmartScan, Thermal Screening, 30"	1178000
SmartScan, Thermal Screening, 32.5"*	1178020

* 32.5" ADA-compliant passageway

PD 6500i™

Walk-Through Metal Detector

U.S.A. / International	Description	Color
1168414 / 1168424*	PD 6500i 30" IP 55	Gray
1168418 / 1168425*	PD 6500i 30" IP 65	Gray
1168432/ 1168427*	PD 6500i 32.5"*** IP 55	Gray
1168434/ 1168435*	PD 6500i 32.5"*** IP 65	Gray

* Supplied with Euro plug. ** ADA-compliant passageway

International security standards

PD 6500i meets the world's highest test certifications, including the following airport standards:

TSA
(U.S.
airports)

ECAC
(European
airports)

STAC
(French
airports)

Aena
(Spanish
airports)

CJIA
(Japanese
airports)

★ Multi-brand compatibility

Can be added to existing checkpoints without having to replace other brand units. Includes multiple channels and 2,300 selectable operating frequencies.

Optimum performance

20-plus program settings engineered to address the needs of airports, courthouses, prisons, schools, special events, mass transit, loss prevention, and other applications.

Dual-sided detection and accurate pinpointing

Provides uniform detection throughout archway and superior noise cancellation for easier setup. Provides precise pinpointing of targets in 33 zones (left, right, and center).

Advanced networking (optional)

Manage individual or groups of walkthroughs and perform statistical analysis of throughput using optional iC module. Remotely access controls, visual alarms and statistics.

Directional counter

Four settings for counting patrons: forward only, reverse only, subtract in reverse, and bidirectional.

Courthouses and other Government Buildings

Stadiums/Arenas

Special Events, Museums, and Hospitals

Multi Zone™

Walk-Through Metal Detector

U.S.A. / International	Description	Color
1171000 / 1171010*	Multi Zone 30"	IP 55 Gray
1171001 / 1171011*	Multi Zone 30"	IP 65 Gray
1171005/ 1171015*	Multi Zone 32.5"***	IP 55 Gray
1171006/ 1171016*	Multi Zone 32.5"***	IP 65 Gray

* Supplied with Euro plug. ** 32" ADA-compliant passageway

★ Enhanced 20-Zone Pinpointing

The *Multi Zone's* twenty vertical zones provide precise location of one or more objects simultaneously. More than 15 application programs engineered to address the needs of specific use applications, such as schools and special events.

★ Advanced Features and Simple Controls

Menu slider bar allows quick adjustment of setting values. Tamper-free controls via a 5-digit alpha-numeric system that has 60 million code combinations. Auto-Setup function scans electromagnetic environment to select optimal frequency.

Advanced Synchronization

Internal circuitry allows multiple detectors to operate as close as 2 inches from each other.

One Hour Battery Backup

Includes 1-hour emergency back-up battery module in the event of power outage or AC power disconnect. 10-hour operation battery also available.

Directional counter

Four settings for counting patrons: forward only, reverse only, subtract in reverse, and bidirectional.

Right price, superior performance:
make the Garrett *Multi Zone* part of
your safe venue plan.

Click for more info

★ Intuitive Menu Design

32-character menu prompts are easy for users to understand (i.e., no codes, acronyms to learn).

★ Bright LED Indicators

Eye-level green "proceed/ready" symbol, red "wait/alarm" symbol, and zone indicators are highly visible in the brightest sunlight.

ACCESSORIES

Walk-Through Metal Detectors

Walkthrough Storage Cover Part No. 1628800

Designed to protect Garrett PD 6500i, Multi Zone (MZ 6100), and SmartScan walk-through metal detectors

Protect your investment: Protect your walkthrough electronics from heavy rain and dust with this light weight and durable water repellent black polyester cover. Includes Urethane coated fabric with black tricot backing to avoid scratches.

One size fits all: Cover is flexible enough to fit over both 30" and 32" Garrett PD 6500i and Multi Zone walkthrough detectors.

Note: For winds speeds up to 25 mph (40 kph)

Divesting Table Part No. 1628300

60" Length
18" Width
29.5" Height

Security Screening Floor Mat Part No. 1619500

Size: 2' x 3'

Expedite your checkpoint: Screening mat indicates the proper foot location/stance for each patron while screening procedures are performed.

Slip resistant: Commercial grade nylon dye fabric with washable rubber backing.

PORTABLE PROTECTION

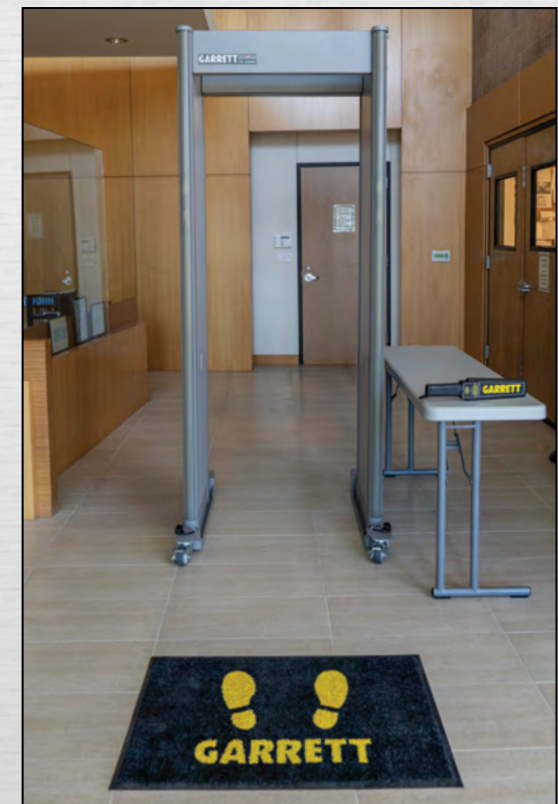

Walk-Through Caster Set Part No. 1169101

For use with Garrett PD 6500i and Multi Zone walk-through metal detectors.

Fast, easy, versatile security.

Includes two rigid locking casters and two swivel locking casters. Ideal for schools, special events, and stadium use.

ACCESSORIES *(continued)*

Walk-Through Metal Detectors

Networking and monitoring. Mobility and stability. Garrett's security walkthroughs are supported by a host of accessory products designed to give the operator full flexibility. Visit garrett.com for information on all Garrett walk-through metal detector accessories.

Battery Modules

Use for backup power or for multi-hour cordless operation for special events. Mounts internally. No external wires or modules.

Click for more info and to view all walkthrough accessories

iC Module

PN: 1171600 (PD 6500i or Multi Zone use)

Communicate to a walk-through metal detector with a laptop or PC through the network either wired or wirelessly. Allows control, real time monitoring, and diagnostics from a remote location.

Quick-Q

Advanced Security Scanning Technology
Part No. 1628500

Quick-Q technology provides quicker venue access by allowing patrons to pass through the checkpoint with cell phones and other small metallic items. (For use with Garrett PD 6500i only.)

Quick-Q Contactless Screening

IDEAL FOR

- High ingress events
- Stadiums, arenas, concerts
- Private entrances
- VIP entrances
- Player entrances
- Casinos, clubs

Hand-Held Metal Detectors

Use either as a primary scanning tool or in secondary screening to pinpoint targets detected by a walk-through metal detector. Garrett hand-held detectors will detect ferrous, non-ferrous and stainless steel weapons, contraband, and other metallic objects.

Super Scanner® V Hand-Held Metal Detector

PN: 1165190

Click for more info

- Self-calibrating - Digital microprocessor technology eliminates the need for periodic sensitivity adjustments. Large 8" scan surface.
- Sharp audible alarm and bright red LED indicates the detection of metal.
- Rugged, high-impact case

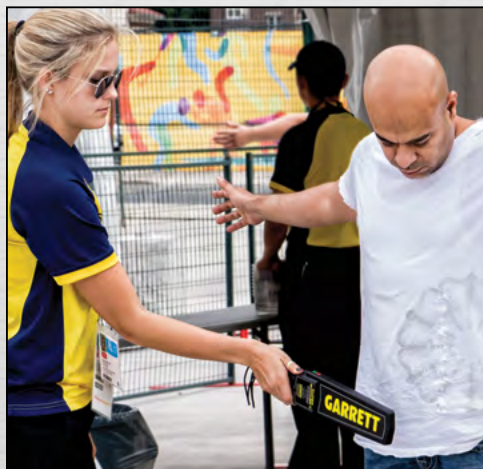

SuperWand® Hand-Held Metal Detector

PN: 1165800

Click for more info

- 360° detection field with pinpointing tip
- Rugged, high-impact construction with structurally isolated coil for added impact absorption.
- Rebar Elimination Control

THD™ Hand-Held Metal Detector

PN: 1165900

- Silent vibrating with Red LED alarm indicator.
- Powerful 4-inch length and 360° detection area.
- Ultra sensitive response to metal objects.

Evidence Recovery Metal Detectors

Garrett has crime scene evidence recovery metal detectors and pinpointers to handle almost any challenge, including deep submergence.

CSI Pro™

All Terrain Metal Detector

PN: 1140750

FULLY WATERPROOF TO 10 FEET (3 meters)

The powerful CSI Pro, with a 0 to 99 Digital Target ID scale, provides all terrain versatility and unmatched performance for metallic crime scene evidence recovery.

Volume-control
headphones
included!

CSI 250™

Ground Search Metal Detector

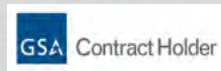

PN: 1140070

The simple-to-operate CSI 250 has unparalleled performance for budget-minded departments.

- Easy operation, low cost
- ID Legend for CSI targets
- Includes MS-2 headphones and CSI carry bag!

about Garrett's CSI
detectors: CSI Pro,
CSI 250, and Sea
Hunter Mark II

Sea Hunter Mark II™

Metal Detector

PN: 1151970

Fully Waterproof to 200 feet (65 meters)

Find all types of metal objects—including lead, brass, and foil—in underwater surf, beach, swamp or freshwater environments. The Sea Hunter provides pulse induction performance to help ignore saltwater and mineralized soils. Choose from two Discrimination Modes.

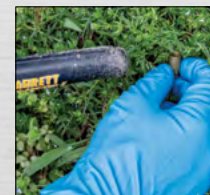

CSI Pro-Pointer® II

Pinpointing Metal Detector

PN: 1166020

Ideal for land-use evidence recovery. Audible/Vibrating alarms increase in intensity based on target's proximity (to quickly pinpoint crime scene evidence).

Click for
more
info

CSI Pro-Pointer® AT

Pinpointing Metal Detector

PN: 1140920

Fully waterproof to 20 feet (6m). Choice of three sensitivity levels. Fast retune (quick press) narrows detection field for precise pinpointing of larger objects. Choose from Stealth Mode operation (vibrate-only) or patented proportional audio/vibrate alarm.

Both Pro-Pointers include: LED flashlight for low-light recoveries; exclusive scraping blade to sift through soil; pinpointing tip and 360° side-scanning capability; holster; and more!

Garrett Countermine / ERW Division

Highly Advanced Pulse Induction Technology with All-Terrain Versatility

Garrett's RECON-PRO All Metals Locators are designed to operate under any field conditions. These tactical metal detectors are highly rugged, simple to operate, and are waterproof to 3 meters.

Deep detection capability for humanitarian ERW operations. Rapid tactical deployment for military searches for mines, UXO, and IED searches.

- Offers performance, durability, and portability for use in all soil environments.
- Environmentally sealed. Fully waterproof to 3 meters.
- 5 search head options provide the flexibility to locate targets from small, low-metal content mines to large, deep UXO.
- Custom packages available. Order your AML-100 or AML-750 to fit your specific needs.

American-Made, World Class Quality

Charles and Eleanor Garrett founded their company in 1964 to build a better metal detector. Through the decades, they have proudly maintained their personal goal—keeping their products American-made with the highest quality of standards. All Garrett products are designed, assembled, tested for quality control and shipped from the company headquarters in Garland, Texas.

Eleanor and her son Vaughan Garrett carry on the legacy of Charles Garrett (1932–2015) by maintaining the high standards of American-made products and superior customer service that the Garrett brand has stood for nearly six decades.

Eleanor Garrett and her son Vaughan carry on their family's business since the passing of co-founder Charles Garrett in 2015.
